1st Transnational Meeting in Romania

The Kick-off partner meeting for the Path 4 Career project took place in the beautiful Oltenia region of Romania, Târgu Jiu on the 25th and 26th October, 2018. The activity was hosted by the coordinating organization, Association Smart Educational Projects (Romania) and was developed with the participation of two representatives from each of the partnering organizations including AcrossLimits Ltd (Malta), Essenia UETP - University and Enterprise Training Partnership s.r.l. (Italy), Interactive4D (France), Fundacion Universitaria San Antonio (Spain) and MBM Training and Development Centre (UK).

The next transnational meeting in the form of a Learning Activity will be held in Liverpool (UK) from the 27th November - 1st December.

Learning Activity #1
MBM Training and Development

The activity hosted by MBM Training and Development Center, between 27th November-1st December 2018 was organized with the 16 trainers from partner countries that will be involved in production of the Guide PATH FOR CAREER and in the training activities with the target groups of 15 young graduates (for each partner organization). The program of the learning activity included presentations of the national aspects related with career guidance and career development in each partner country, concert examples offered by different British organizations involved in this area and methods for using in trainers' activities.

An interesting activity proposed by the British partner was **Applied Drama**. This was a role playing method to give participants the opportunity to put themselves in real life scenarios of a job interview process, whilst also empowering them with the understanding that a simple change in non-verbal or verbal communication can make all the difference to the outcome.

Future Developments

The Guide

The next 3 months of implementation will be dedicated to the development of the first chapter of the Path 4 Career Guide which will focus on **proactive career management**. British partners, [MBM Training & Development Center](http://www.mbmtraining.com) will develop the theoretical content of this chapter, whilst Romanian partners, [Smart Educational Projects](http://www.smarteducationalprojects.com) will follow with the methodological part within the second part of the trimester.

Stay tuned to hear more about the **Plan You Career** educational game! Our French partners, and award winning educational/serious game developers [INTERACTIVE4D](#) will be working towards the games development. Did you know - both the Path 4 Career Guide and Game will be available in 5 different languages including - English, French, Italian, Romanian and Spanish!
